

# STOP PLAN B

**JOIN THE MOVEMENT TO STOP THE DESTRUCTION OF HOME AND HABITAT  
YOUR COMMUNITY NEEDS YOU**

---

Despite the massive public rejection of the secondary plan of action proposed for the realignment of the Trans-Canada Highway, provincial and federal governments have continued to try to push the project through. By doing this, they are forcing people to sell their homes and destroying the surrounding environment encompassing the area of Bonshaw and New Haven.

For those of you who aren't aware of the area, it is a beautiful landscape with natural and historical values. Many plant species that are vulnerable to extirpation (local extinction) occupy this area, as well as faunal species that are already under severe pressures of habitat fragmentation on Prince Edward Island.

Some of those who have lived in the area that the proposed construction is to take place have been forced to sell their homes and property. Not only is this project environmentally unsound, but it's also morally and ethically unacceptable.
